Victor:

I left you a voice mail on this as well. Khesha and I discussed this strategy with Karl Simon. Karl was not happy with the 11 month schedule to make this AECD smarter. We will be issuing 3 month conditional certificates to allow time develop a better schedule.

As we discussed before, we are processing other applications which were submitted before Cummins on-highway. I will make an effort to get them out before January 1 but I can't guarantee it.

We are off 12/24 and 12/25 and I am in the other days if you need to get a hold of me.

Greg, here is a tentative schedule of activities on this issue:

- 1. Virtual Field Test Analysis to model risk/benefit and determine proposed options** CBI/ Ex. 4
- 2. Integrate New Software / Revisions to calibration** CBI/ Ex. 4
- 3. Engineering Evaluation / Local Testing** CBI/ Ex. 4
- 4. Customer Evaluation / Field Testing** CBI/ Ex. 4
- 5. Enable Improved Feature in Production and Service Cals** CBI/ Ex. 4  
CBI/ Ex. 4

Subject Cold Weather Regen AECD

Victor:

Can Cummins propose a timeline for addressing this issue?

Before issuing 2008s, my management is going to want progress is likely to made and when it might be resolved?
